WHO ARE WE?

COMPANY PHILOSOPHY & PROGRAMMES

We believe that the rich learning experiences our programs offer can affect powerful and positive transformation individuals, in their communities, institutions and countries. We work with our partners globally to design and implement programs in which participants reach across – and live across – boundaries and borders. And we do this in an atmosphere of mutual respect, organized collaboration, and fun.

PROGRAMMING

We conduct 50-70 short-term programs each year for groups that range in size from 1 to 40 participants, and participants who are 16 to 60 years age group. Programs last anytime from one week to four weeks, after which time participants return to their communities, provinces and home countries. We tailor each program's content to its respective participant profiles, its thematic concentration, and its country or countries.

PROGRAM COMPONENTS AND METHODOLOGY

GNBI recognizes that the adult participants who take part in our project's are experts in their fields, and that youth entrepreneurs also bring a great deal of knowledge, innovation and creativity. We see our role as exposing them not only to new knowledge but also to widely different ideas, situations, emerging markets, developed markets and world-renowned entrepreneurs, leaders and advocates of economic empowerment. GNBI sessions stimulate thought and discussion, so that participants may build on their own knowledge and understanding. Conversely, we call on our foreign participants to help inform the South Africans they encounter about their cultures and expertise.

WHY WORK WITH US?

OUR PARTNERS APPRECIATE AND RELY ON GNBI'S STRENGTHS:

EXPERIENCE

GNBI staff has more than twenty years of experience providing training, business consultancy, specialist advice, exchange, and projects for countries worldwide.

DELIVERY OF EXPERTISE

GNBI has access to some of the top minds in South Africa and the continent. Our far-reaching network of professionals includes university professors, international and regional consultants, national and local government offices, and nongovernmental organizations.

ADAPTABILITY & SUSTAINABILITY

GNBI has developed an extensive array of courses and programs that can be adapted to suit the particular needs of our delegates, entrepreneurs, young leaders and trainers. GNBI provides follow-on components for our projects to maximize the scope and depth of the training provided.

EVALUATION

GNBI projects include a thorough evaluation component which extends from participant input and feedback during the country side programs to impact evaluations as each project concludes.

GNBI provides follow-on components for our projects to maximize the scope and depth of the training provided.

GIVING BACK TO THE COMMUNITY

Giving back to the historically marginalised communities in the developing countries and South Africa specifically, our work with a wide range of delegates and partners has led to profound intercultural learning experiences.

Course Overview

Environment and Agriculture Management Program Overview

As governments, donors, and citizens become increasingly concerned with the environment and the sustainability of natural resources, there is a growing need for collaborative strategies for environmental protection and natural resources management. GNBI's extensive network of environmental and agricultural technical experts provide training in applying practical tools and results-oriented methods for building cross-sector solutions to environmental challenges.
